UIT SHC BI Reporting

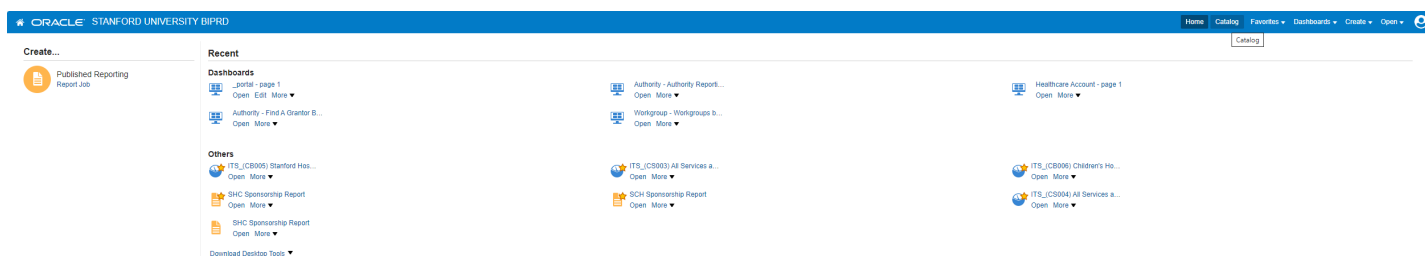

Running a Client Inventory report (CS004):

All Services and Item Details reports show data for all services that have been ordered, searchable without specifying a period name (billing month and year).

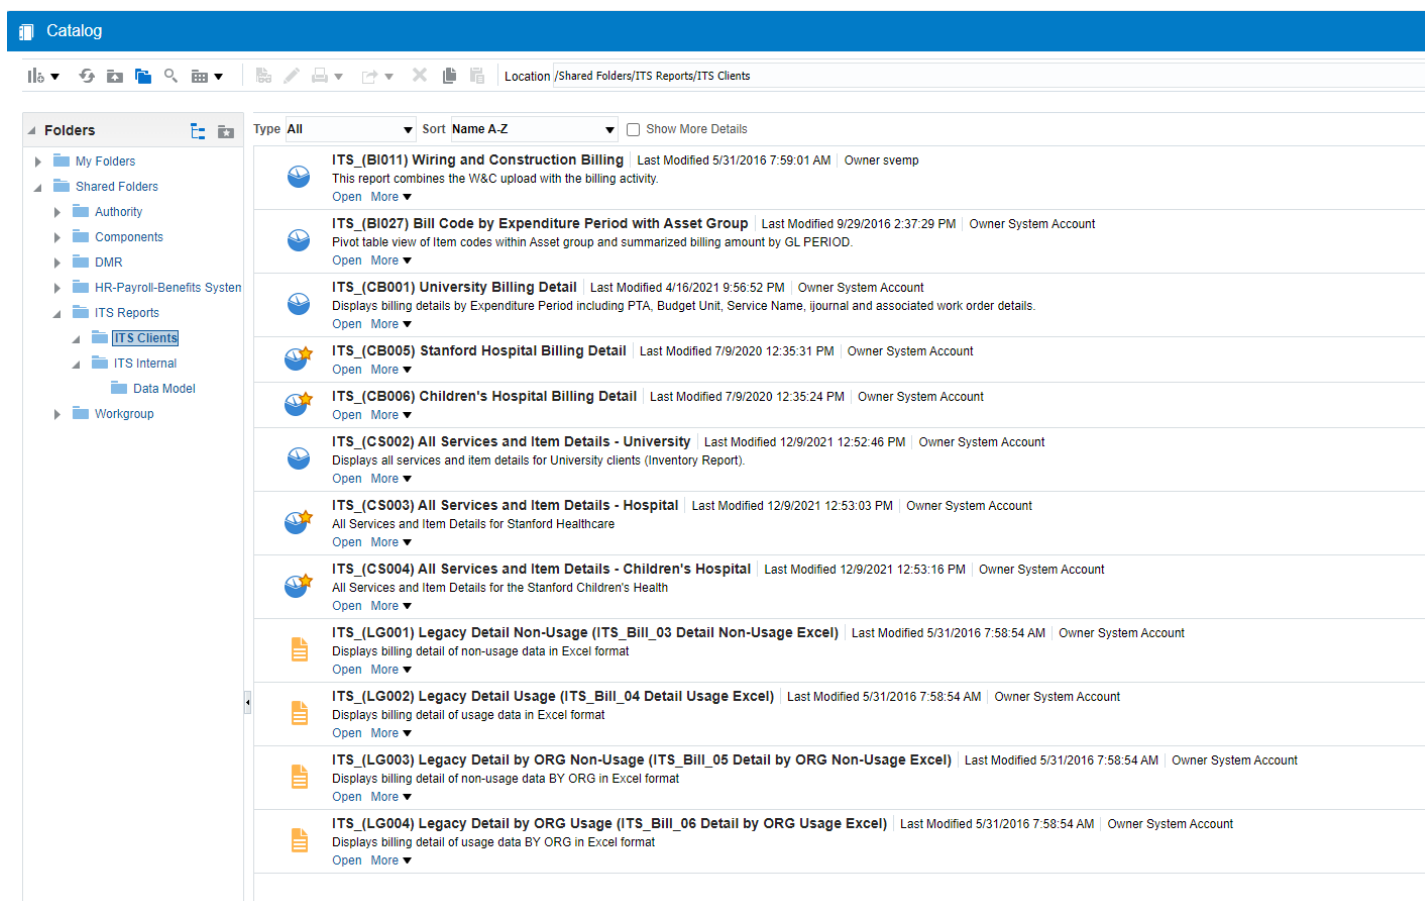

1. Go to [Oracle BI](#)

2. Your browser version is checked automatically. If it does not pass, please close the open browser and use a [recommended browser](#). You will need to use your SUNet ID and password to login.

3. In the blue toolbar at the top right, click **Catalog**

4. In the Folders panel, double-click **Shared Folders** to expand it, then choose **ITS Reports**. Select **ITS Clients** and then the report **ITS_(CS004) All Services and Item Details – Children’s Hospital** using the **Open** button.

5. Use the filter field arrows to limit your report. **Note: field names are case-sensitive – see examples.**

Questions with an asterisk are required fields

Services Name – remember to include the corresponding “Adjustment” Service Name

 ITS_(CS004) All Services and Item Details - Children'...

1. All search prompts are case sensitive.
2. Use a semicolon as separator when entering multiple values.
3. Search prompts with no drop-down arrow can take only one value at a time, i.e. no multiple values can be entered.
4. Export results in Tab Delimited or PDF format (excel is not a valid format).

User Name (e.g., Adams, Smith...)	contains any	<input type="text"/>
Service Type (e.g., CABLE TV, VOICE, ...)	contains any	--Select Value-- ▼

WorkOrder Requested End Service Date	is equal to / is in	<input type="text"/> 
Work Order Creation Date	is equal to / is in	<input type="text"/> 

[Refresh](#) - [Copy](#)

It is important to pick at least one **ITS Work Order Status (ex. In Service, Complete,...)**

- **In Service** (active – billing)
- **Complete** (canceled – will bill up until the cancel date)
- **Released** (new order not In Service waiting to be provisioned)

6. Click **OK**. The report may take a few minutes to display.

7. To export the report, scroll to the bottom of the page and click **Export > Data > Choose Format**. The report downloads to your computer.

Note:

Transaction Quantity may be a dollar amount where there is upload or custom billing otherwise it is the number of units for a bill code ordered or returned.

Transaction Type: show an issue and return of quantity
