Trouble Printing PDFs With Mobile Print? Print From a Mac or Windows Computer Instead

Install the Cardinal Print Driver On Your Computer

- Go to https://cardinalprint.stanford.edu/drivers
- Download the Cardinal Print driver for your device (Mac or Windows).
- Run the installer and follow the prompts.

Open & Print Your Document From a Computer

- Open the file you want to print (Word, PDF, Google Docs downloaded file, etc.).
- Select *File* → *Print* (or press Ctrl+P on Windows / Command+P on Mac).
- Choose "Cardinal Print" from the printer list. Adjust your print settings as needed.
- Click *Print.* Your job is now in your secure Cardinal Print queue.

Retrieving Your Document

- Go to any Cardinal Print Printer. (Common locations include residence halls, Green Library, and Old Union. You can view all locations on the Searchable Campus Map.)
- Log in at the Cardinal Printer using a Stanford ID card, mobile key, or SUNet ID + password.
- Select the print icon on the screen, and choose your document(s) from your queue.
- Tap *Print* again and retrieve your document(s) once they are finished printing.

No Computer? Print PDFs via Mobile Stress Free

- **Export files from Noteability and GoodNotes as images (.png or .jpg.)**
- **Use a free program like Canva or Smallpdf covert PDFs to images (.png or .jpg).**
- **Use Standard paper sizes like, 8.5 x 11 or 11x17.**
